Night Cover User Guide

This night cover is manufactured to control the speed and alignment of the cover during retraction.

**Closing the Cover**

1. Pull straight down on the handle.
2. Hook the handle to front of the case. Or, pull to desired location and allow magnet to catch.
3. Night cover is now secured.

**Opening the Cover**

1. Detach the handle from the case. Or, pull forward to release magnet.
2. Release the night cover to retract without the guidance of your hand.
3. Allow curtain to roll up by itself.
**Important Notes**

Not allowing the cover to auto-retract (e.g., guiding it with your hand as it retracts) can lead to improper alignment as it rolls up, damaging and/or creasing the aluminum fabric of the cover. Allow the cover to work as it has been designed.

Clean the outer fabric once per month with a moist sponge.

**Defrost Cycles**

Defrost cycles must be avoided while the case is closed with a night cover. Doing so can negatively impact the proper functioning of the case.

The table below provides a suggested case defrost schedule for a case equipped with a night cover.

<table>
<thead>
<tr>
<th>Defrost Per Day</th>
<th>Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>11:00 pm</td>
</tr>
<tr>
<td>2</td>
<td>12:00 pm – 11:00 pm</td>
</tr>
<tr>
<td>3</td>
<td>6:00 am – 2:00 pm – 10:00 pm</td>
</tr>
<tr>
<td>4</td>
<td>6:00 am – 12:00 pm – 6:00 pm – 11:00 pm</td>
</tr>
<tr>
<td>6</td>
<td>8:00 am – 12:00 pm – 4:00 pm – 8:00 pm – 11:00 pm</td>
</tr>
</tbody>
</table>

*Note: one cycle from the six defrosts per day has been purposely omitted*

Please schedule defrost cycles before closing and after opening display cases with night covers.

Please see Engineering Reference for detailed defrost information applicable to your specific merchandiser.
