Fast Facts...

- Standard LED lighting, combined with the flexibility of adjustable shelves, provides a superior product visibility design allowing the customer to see the product at a distance while always keeping it in the refrigerated zone at the desired NSF temperature.
- Built-in, rear condenser chimney exhaust with standard heavy duty casters provides flexibility in placement of the display case and improved shopper comfort with heat released from the top of the chimney.
- Easy to remove painted or stainless metal interior parts ensure ease of case cleaning piece-by-piece without tools for improved food safety, reduced labor costs and a sanitary environment ready to be merchandised.
