- Black Anthony ELMD doors with short handles, LH swing.
- Customer-provided light controls and A/C control.
- Solar digital thermometer
- Refrigeration:
 - R448A DX Refrigerant.
 - TXV balance port sweat.
- Heat exchanger.
- Refrigeration lines piped to the bottom.
- Hand valve.
- EBM high-efficiency fan motors.
- Electric defrost 1-phase.
- Electronic defrost/fan control wired to bottom.
- Conforms to UL Standard 471, NSF Standard 7 and CAN/CSA C22.2.

2017
DOE
COMPLIANT

Please consult Hillphoenix Engineering Reference Manual for dimensions, plan views and technical specifications. Specifications are subject to change without notice. Certified to UL 471 and ANSI/NSF standard 7.

Designed for optimal performance in store environments where temperatures and humidity do not exceed 75°F and 55%R.H.

Available Options

- Brushed stainless front end trim (S3).
- Black Anthony 101LE door frames with Optimax Pro high-output 3500K LEDs, LH swing.
- White case interior.
- 4 rows of shelving.
- Top wiring.
- R407A refrigerant.
- Hot gas defrost.
- Top piping.
- Temperature control TStat.
- Temperature probe.

Fast Facts...

- Proprietary NRGcoil™, coupled with high-efficiency ECM fan motors, ensures uniform case performance, lower average product temperatures and maximum energy savings.
- 75" tall door, coupled with 8" ultra-low front, maximizes product visibility and merchandising versatility.
- Bottom-located refrigeration components facilitate serviceability and allow for full top shelf merchandising.
- With easy to design POG's, with no restrictions in the 66" interior height enhance planogram design options with added flexibility and versatility allowing for product to take center stage.
- All-steel construction for increased life span and structural integrity.
- Seamless tank liner provides positive drain runoff and enhanced sanitation.
- Removable castors for easy merchandiser unloading, movement and installation.
