TYLER

NFJ/NCJ/NTJ Frozen Food/Ice Cream Jumbo Island Merchandisers

Tyler's NFJ/NCJ/NTJ Frozen Food/Ice Cream Jumbo Island Merchandisers are factory assembled to serve as multi-purpose merchandisers in your frozen food department. The NFJ is available with dual and medium temperature controls, per case. A split coil NTJ is the perfect solution for twin or dual temperature merchandising, per well.

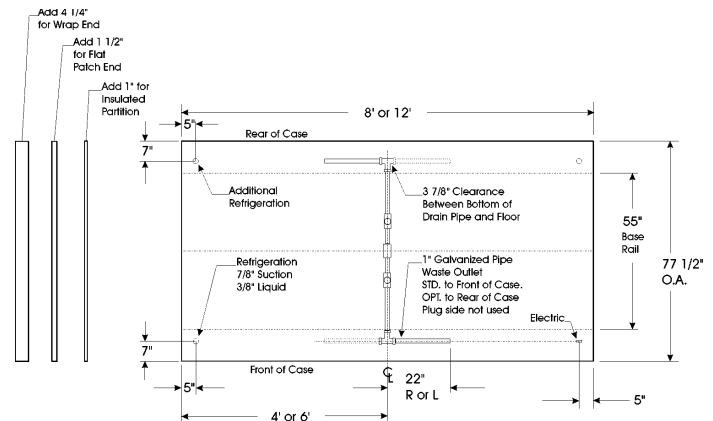

Standard Features

- U.L. certified to ANSI/NSF 7 Sanitation Standard.
- Energy efficient copper tube, aluminum fin coils ensure product integrity.
- Durable, non-metallic corner protectors are available in colors to match bumpers.
- Environmentally safe CFC-free foam.
- Solid steel base structures add strength and durability.
- Removable fan assembly allows access to coil and drain pan.
- Seamless non-corrosive drain pan for ease of sanitation.
- Color-coded and labeled wiring speeds installation and setup.
- Electric defrost.
- Rigid vinyl bumper, handrail and raceway cover.

Optional Features

- E.C.M. fan motors reward you with exceptional energy savings.
- White powder coated display screens create your merchandising masterpiece.
- Flat or wrap-around ends are available as an alternative to the seven-foot end cases.
- Non-refrigerated superstructure shelving, with or without lights, adds a variety of merchandising options to your product presentations.
- Split coils per well for NTJ series, allow twin temperature merchandising (frozen food/ice cream) or dual temperature merchandising (frozen food, medium temperature) on opposite sides of the island.
- Dual temperature and medium temperature applications are available per case for the NFJ series..
- Gas defrost.

Model	Case Length	Description	Capacity in Cubic Feet
NFJ8	8'	Frozen Food Jumbo Island	50.8
