N6F and N6FL vertical multi-deck merchandisers provide wide-open accessibility to frozen food, maximizing product facings in a minimum amount of floor space. These versatile cases are ideal for completing a frozen foods department, but they can also be used as medium temperature display merchandisers.

**Features & Benefits**
- Energy-efficient copper tube and aluminum fin coils.
- N6F models have two rows of energy-efficient T8 canopy lights and one row of T8 nose lights with remote electronic ballasts.
- N6FL models have three rows of energy-efficient T8 canopy lights with remote electronic ballasts.
- Hinged top light channel allows easy access to all ballasts.
- Solid steel base adds strength and durability.
- Easily removable interior components and seamless non-corrosive drain pan for ease of sanitation.
- Electric defrost.

**Options**
- ECM fan motors for additional energy savings.
- Energy-efficient T8 shelf lighting with remote ballasts for greater product illumination.
- 18" or 22" deep shelves are sloped up 5° perpendicular to the rear panel for more stable product stocking. Three-position brackets allow additional shelf display angles as well.
- 20" gasketed shelves help isolate cold air from the rear panel to each shelf row. Available with three-position shelf brackets.
- White powder coated display screens add a variety of merchandising options.
- Gas defrost.

</table>

* Cubic capacity is based on three rows of 22" shelves and one row of 18" shelves.

**Optional Accessories**
- 18", 20" (gasketed), and 22" shelving maximizes merchandising space. Additional T8 shelf lighting enhances product visibility.
- Three-position shelf brackets provide the desired shelf angle for optimum product viewing.

ALLOW 3" SPACE between the back of the case and store walls; other cases or other coolers to minimize possible condensation problems. FORCED VENTILATION may be necessary in some situations.
