N7DNL and N7DNHPL narrow depth, extended height, vertical multi-deck merchandisers provide that extra vertical merchandising space to a case with a space saving footprint. The extra four inches of vertical space makes it a perfect match for merchandising dairy, deli and beverage products where space is a premium.

**High Performance TC Coil™**

High Performance (HP) Merchandisers feature our patented TC Coil™ design, which represents a major technology breakthrough for the commercial refrigeration industry. Developed jointly by Carrier Corporation and Tyler, the TC Coil™ enables HP merchandisers to operate more efficiently, providing energy savings that allow faster payback periods for food retailers.

**Note:** For more information about Tyler high performance display merchandisers featuring TC Coil™, go to the Technologies section of this catalog on page 8.

**Features & Benefits**

- Energy-efficient copper tube and aluminum fin coils.
- Double row of energy-efficient T8 canopy lights.
- Hinged light channel allows easy access to ballasts.
- Solid steel base adds strength and durability.
- Easily removable interior components for quicker cleaning.
- Fan assembly design allows access to coil and drain pan.
- Off-cycle defrost.

**Options**

- ECM fan motors for additional energy savings.
- Energy-efficient T8 nose light with remote ballasts for greater product illumination.
- Up to six rows of multiple depth unlighted shelving.
- 3 or 6 position shelf brackets for varied shelf display angles.

Specifications are subject to engineering changes without notice.
