NVM meat service merchandisers provide dual-coil cooling that maximizes the integrity of fresh meat products. A single sealed triple-pane front glass offers seamless front viewing while increasing the case's insulating factor, providing an energy-efficient alternative to lift glass versions. The vertical glass minimizes the reflection and glare of ambient lighting.

Features & Benefits
- Energy-efficient copper tube and aluminum fin coils.
- Single row of T8 top lights for increased product illumination.
- Vertical Triple-pane glass minimizes glare and eliminates condensation.
- 22-1/2” clear sliding rear doors for easy access to interior.
- Easily removable interior components for quicker cleaning.
- Pipe leg base and removable kickplate facilitate cleaning under the case.
- Ample room for the display of dry-goods on the case top provides opportunity for impulse sales of related products.
- Off-cycle defrost.

Options
- Second row of energy efficient T8 top lights with remote electronic ballast.
- Glass windows on patch end panels.
- White powder-coated display screens.
- Step trays and food pans.
- Scale shelves.
